22 January 2017

1. Statutory background to the directions

- A. Under section 11(2) of the Water Services etc. (Scotland) Act 2005, the Commission may give directions of a specific or general nature to Scottish Water or licenced providers in order to secure the participation of licensed providers in the provision of water and sewerage services in an orderly manner and in a manner which is not detrimental to the exercise of Scottish Water's core functions.
- B. The Water Services (Codes and Services) Directions 2007 were made by the Commission under section 11(2) of the 2005 Act and require Scottish Water to comply with various provisions set out in those 2007 directions. This includes paragraph 8B of the 2007 directions, which enables the Commission to issue further directions providing that any wholesale services agreement to which Scottish Water is party shall have effect with, or subject to, such modifications as are specified in those directions.
- D. Section 6 of the 2005 Act authorises the Commission to grant water services or sewerage services licenses. All licenced providers have been granted, and are required to comply with, such licences which include the standard conditions determined by the Commission under paragraph 2(2) of schedule 2 to the 2005 Act. Standard condition A7(6) also enables the Commission to issue directions providing that any wholesale services agreement to which the licensed provider is party shall have effect with or subject to such modifications as are specified in such directions.
- E. In exercise of its powers and functions under section 11(2) of the 2005 Act; paragraph 8B of the 2007 directions and standard condition A7(6) and having consulted generally and in particular with Scottish Water, the Central Market Agency and each licenced provider, the Commission now makes these directions for the purposes of securing the participation in an orderly manner and in a manner that is not detrimental to the exercise of Scottish Water's core functions, of licensed providers in the provision of licensed services.
- F. In issuing these directions the Commission is not prevented from issuing further directions, of a general or specific nature, to Scottish Water or any other person on the same subject matter as these directions or on any other matter which the Commission considers appropriate in accordance with its powers and functions.
