E9.7	Compliance with effluent consent standard	%	Odp
-------------	--------------------------------------------------	----------	------------

Data Definition: The percentage compliance with the number of sanitary determinants tested from the effluent discharge. This should be calculated as follows: STW compliance = 1- (number of failures for sanitary determinands / total number of sanitary determinands sted).

Processing Rule: Input field

Field Type: Input

E9.25

E9.15	Power costs	£000	Odp
--------------	--------------------	-------------	------------

Data Definition: The total power cost for the STW included in the direct costs above. The power costs for large STWs should be consistent with those reported in Table M18WW. The power costs of terminal pumping may only be included if the costs of a terminal pumping station at the STW are included in E9.17 and E9.18. SW must clearly indicate whether or not such costs are included.

E9.16	Service charges SEPA	£000	0dp
--------------	-----------------------------	-------------	------------

Data Definition: The total Scottish Environmental Protection Agency service charges for the STW included in the direct costs above.

 WICS 06 Ref:

E9.37

E9.17	Total direct costs	£000	1dp
--------------	---------------------------	-------------	------------

Data Definition: The total direct cost of sewage treatment (as defined in RAR 4 for Table M18WW) at the works in question (i.e. Excluding services provided to third parties). Where the works also undertakes sludge treatment, it may not be possible to exclude the costs associated with sludge in a meaningful way at the works level. If any sludge costs are included here, this should be estimated in line E9.21. If terminal pumping costs are included here this should be estimated in E9.20.

E9.39

E9.18	General and support expenditure	£000	Odp
--------------	----------------------------------------	-------------	------------

Data Definition: The general and support expenditure allocated to each sewage works (as defined in RAR 4 for Table M18WW). Where possible, such expenditure should be attributed on a causal basis; otherwise it should be apportioned in proportion to direct costs.

Processing Rule: Input field

Field Type: Input

Previous References: Ofwat 07 Ref: T17b, L12 WICS 06 Ref: E9.40

E9.19	Functional Expenditure	£000	Odp
--------------	-------------------------------	-------------	------------

Data Definition: The sum of direct costs and general support expenditure for each sewage works (as defined in RAR 4 for Table M18WW).

Processing Rule: The sum of E9.17 and E9.18

Field Type: Calculated

Previous References: Ofwat 07 Ref: T17b, L13 WICS 06 Ref: E9.41

E9.20	Estimated terminal pumping station costs	£000	Odp
--------------	-------------------------------------------------	-------------	------------

Data Definition: The estimated direct cost of terminal pumping stations pumping to the works in question, for which costs are included in E9. 17 To E9. 19.

Processing Rule: Input field

Field Type: Input

Previous References: Ofwat 07 Ref: T17b, L14 WICS 06 Ref: E9.42

E9.21	Estimated sludge costs	£000	Odp
-------	------------------------	------	-----

Data Definition: If the cost of sludge treatment is included in E9.17 to E9.19 above, SW must enter an estimate of the costs involved (otherwise, zero). If sludge costs are included, SW must comment in their Return on the basis of their estimate of the costs.
