

Annual Return 2013/14 ASSURANCE STATEMENT

Background

The Board is required to confirm that it has endorsed the Overview to the Annual Return.

The Board has charged the Chief Executive, with the responsibility to establish and maintain sound systems of internal control that support the completion of the Annual Return submission to the Water Industry Commission.

The systems of internal control that support completion of the Annual Return are designed to ensure:

- The accuracy and consistency of reporting
- That soundly based assumptions and judgements are used
- Audit trails are maintained for origination and approval of all data in the Annual Return
- The identification, understanding and reporting on material data exceptions
- The reliability of information for decision making and for performance assessment.
- Compliance with applicable regulatory and legislative reporting requirements.

The systems of control are designed to reduce the risk of material error and to provide effective assurance on the completion of the Annual Return.

Process

The Board gains assurance as to the effectiveness of internal control through:

- the controls and assurance process put in place by the Executive Directors to ensure that the Annual Return is consistent with the requirements of regulatory reporting;
- a signed assurance statement from the Chief Executive concerning the operation of the systems of internal control;
- reporting from Executive Directors on associated matters;
- the results of both internal and external audit, and other internal and external review agencies;
- the adequacy of management response to issues identified by audit and review activity; assurances relating to the corporate governance requirements for the organisation; and
- the operation of anti-fraud policies, whistle-blowing processes, and arrangements for special investigations.

Outcomes

Based on the Board's knowledge of the effectiveness of the systems of internal control, that support the completion of the Annual Return, the Board has endorsed the Overview to the Annual Return. The Board has been assured that the assumptions, judgements and confidence grades used are appropriate, reasonable and consistent with the requirements of regulatory reporting.
